SKILLS

Data Science :

- Python : Pandas, Numpy, Tensorflow, Scikit-learn, Matplotlib, Keras
- Machine Learning, Deep Learning, Data Collection, Data Cleaning, Data Visualization, Transfer Learning
- Language R, SQL

Programming :

- Web technologies : HTML/CSS, JavaScript, PHP, React Native
- Autres : Java, C, C++

Languages :

- English : Level B2, Cambridge English B2 First
- Spanish : Elementary

HOBBIES

Sports :

- Tennis : 7 years in competition
- Football : 5 years
- Badminton : 4 years in competition
- Basketball

Astronomy :

- Telescope : Sky observation

PROJECTS

CLASSIFICATION OF OVARIAN CANCER

Deep Learning | 6 weeks March 2020

- Create an AI in order to predict if a patient is cancerous or not
- Skills acquired: Deep Learning, CNN, Data cleaning, Data Visualization

MASKED RECOGNITION AI

Deep Learning | 5 weeks November 2020

- Project to build a Deep Learning AI that recognize if human has a safety mask or not, and if this mask is well placed
- Skills acquired: Deep Learning, CNN, Transfer Learning, Image Processing, Image Recognition

PROFESSIONAL EXPERIENCES

DATA ENGINEER/DEVELOPER

SITEPROJET, Lille | May 2021 – August 2021

- Realized a mobile application in React Native.
